CHUNMOO

MULTIPLE ROCKET LAUNCHER SYSTEM

LONG RANGE PRECISION FIRES

CHUNMOO GUIDED ROCKET & TACTICAL MISSILES / LAUNCHER SYSTEM

The Chunmoo Multiple Rocket Launcher System offers precision targeting and Fire For Effect capabilities with a selection of state-of-the-art missiles tailored to the desired range.

- Short Ready-to-Fire sequence
- Ready to integrate rockets/missiles of NATO allies
- Interoperable with various C4I systems
- Training rockets available

CHUNMOO MULTIPLE ROCKET LAUNCHER SYSTEM

TACTICAL VEHICLE

Combat weight	31 tons
Crew	3 (Launcher) 2 (Ammunition Carrier)
Engine	450 hp
Transmission	Fully automatic
Max. speed	80 km/h
Cruising range	450 km

LAUNCHER

Loading capability	1-pod and 2-pod configurations
Launch coverage	Azimuth $\pm 194^\circ$ Elevation $0-60^\circ$
Launcher speed	Azimuth $25^\circ/\text{sec}$ Elevation $6.4^\circ/\text{sec}$

Launcher can be mounted on other trucks

AMMUNITION CARRIER

Crane type	Articulated hydraulic
Loading capability	4 pods
Max. payload	10 tons

PRECISION-GUIDED MUNITIONS

FIRING PERFORMANCE CHUNMOO GUIDED ROCKET & TACTICAL MISSILES

CGR-080

Guidance	GPS/INS
Warhead	HE Penetration Fragmentation
Propulsion	Composite propellant
Range	30~80 km
CEP	15 m
Rounds/Pod	6
UN number	0181
IMDG code	1.1E

CTM-MR

Guidance	GPS/INS
Warhead	HE Blast Fragmentation
Propulsion	Composite propellant
Range	50~160km
CEP	9 m
Rounds/Pod	4
UN number	0181
IMDG code	1.1E

CTM-290

Guidance	GPS/INS
Warhead	HE Blast Fragmentation
Propulsion	Composite propellant
Range	80~290km
CEP	9 m
Rounds/Pod	1
UN number	0181
IMDG code	1.1E
